

Technical Data Sheet

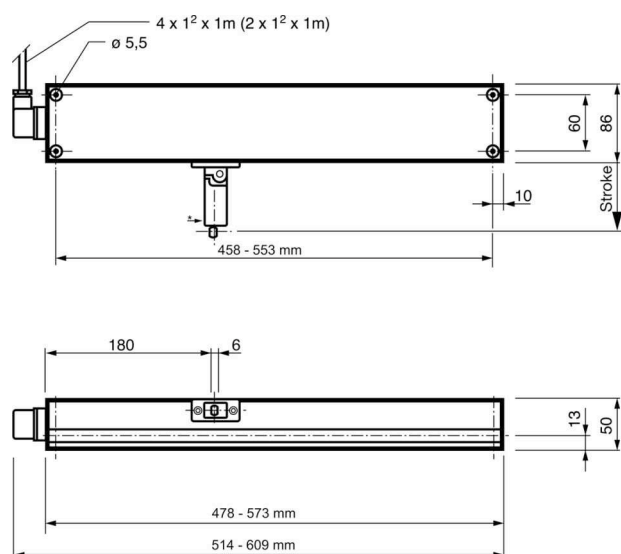

Chain actuator 230V AC for: *top hinged windows and bottom hinged windows*

Technical Features

Operating voltage	230V AC \pm 6%
Frequency	50 Hz
Stroke	420 mm / 600 mm
Thrust force and Tensile force	400 N
Current absorption	0,75 A
Speed	22 mm/s
Operating temperature	-10°/+40°
Operating time	4,5 min.
Limit switch closing-opening	Reed
Protection degree	IP 22
Colour	Anodised silver

Dimensions

Limits of use

The height of the frame must be at least:	1100 mm
The width of the frame must not exceed for each actuator	1500 mm

The applied load must not exceed 400 N

Check that the product is suitable for the environment planned

Fixing accessories
